

PRESENTER

Jessica Hsaine M.A., CCC-SLP, currently is a speech language pathologist at Mercy Medical Center in Rockville Centre. She has 19 years experience working with patients on the rehabilitation, acute, and outpatient departments. She also has 12 years experience working as a clinical educator and adjunct instructor at Molloy College and Adelphi University. She has extensive experience treating adult patients in a variety of settings including homecare, subacute, skilled nursing, and private practice. She has been a guest speaker on television and at conferences on the topics of swallowing and stroke rehab. She recently improved the cognition and swallowing of the fragile patients with COVID during the pandemic. Jessica graduated from SUNY Farmingdale with an Associate of Liberal Arts and Sciences degree in 1998. She graduated from SUNY Geneseo with a B.S. in 2000 and a M.A. in 2001. She became FEESST certified in 2002 from Columbia University NY Presbyterian Hospital and has worked in several medical offices as a swallowing specialist. She is currently pursuing a Ph.D. in Speech Language Sciences and Disorders at Adelphi University.

PowerPoint/Handout Presentations and Zoom link will be emailed to confirmed attendees 72 hours prior to the workshop.

Brain Retain: Let's Discuss Some Cognitive Strategies, Activities, and Functional Tasks After Brain Injury

Thursday
October 29, 2020

Presenter:

Jessica Hsaine, M.A., CCC-SLP

Sign-In: 5:30pm

Workshop: 5:45pm-9:00pm

Earn .3 ASHA CEUs

Location:

Zoom Webinar Platform

Workshop Coordinator

Melissa Kreuder, M.A., CCC-SLP
Immediate Past President

OVERVIEW

All clinical SLPs know the importance of functional evidence based cognitive therapy. Unfortunately, we may not have the time, resources, or energy to read the current research and design creative cognitive tasks. Let's focus on the clients, incorporate functional tasks, and practice strategies in real life contexts. I am opening my functional cognitive toolbox and sharing my evidenced based tasks.

LEARNING OBJECTIVES

Participants will:

1. Discuss the different components of cognition.
2. Describe creative ways to engage a patient with cognitive tasks.
3. Define evidence-based research behind the functional task.

AGENDA

- 5:30 – 5:45 Registration
5:45 – 6:30 Review of Cognitive Components and Evidence-Based Research
6:30 – 7:30 Patient-Centered Cognitive Strategies Focusing on Memory and Organization
7:30 – 7:40 BREAK
7:40 – 8:45 Functional and Inexpensive Cognitive Treatment Activities Focusing on Executive Functioning
8:45 – 9:00 Questions and Answers

I plan to attend the
